

- **Best buying and selling terms**
- **Reliable delivery capability**
- **Worldwide procurement sources from leading manufacturers**

## **SALES OF REFURBISHED ITEMS**

**Network components (used goods)**

**You save up to 90% on your purchase and still get the usual service.**

**Timlic offers tested refurbished network components that are guaranteed.**

**Your advantages:**

- You can purchase network components at a price discount of up to 90% below the manufacturer's list price
- You get a general one-year guarantee, which, as a rule, does not only apply to end consumers
- If a network component purchased from us has to be replaced, you receive a replacement delivery without delay (usually within 24 hours)
- From Timlic you purchase only equipment whose functionality has been tested by qualified experts
- Many used network components are still in as new condition

## **BUYING OF REFURBISHED ITEMS**

**Network components (used goods)**

**You make additional profits by selling already depreciated or surplus network equipment.**

**Sell small or large quantities of your depreciated or surplus network components to Timlic.**

**Your advantages:**

- Timlic buys your surplus equipment at the highest possible market price or trades it against new purchases from us (trade-in).

### **References:**

Our base of satisfied customers includes a great number of the most well-known resellers and end users. Please contact us – we would be happy to provide you with details.
